Gymnasium Student Council Agenda for the 2006/07 academic year was made by taking into consideration our capacity as well as needs of the Gymnasium students. It is very important to fully realize this Agenda because only so can we accomplish our main objective and that is strengthening the role of the Student Council and popularization of the Council among students.

Beside the listed activities, the Gymnasium Student Council will continue to protect the students' rights, but also warn them about their obligations. We're going to continue informing the students about the Grading Rules.

Compared to the last year, this Agenda is broadened and more detailed. We've kept all of the last year's activities and introduced some new and some expanded activities.

This year we also plan to further improve our cooperation with the School Management and achieve cooperation with youth nongovernmental organizations.

We call upon all Gymnasium students to join us and make the Gymnasium Student Council better!
