Young people the "bridge" of friendship, partnership and interculture intelligent between young people

Grammar school Banjaluka proves still once adopt all quality world schools. With great effort we achieve partnership with pupils schools our country and region, but with schools from all Europe. Proof is Project exchange pupils with schools from England and Italy, and visit to Grammar schools in Kragujevac (The Republic SCG) and Osijek (Croatia).

Ambasy.

Realized excellent communication with pupils who came from Italy. They visited our city and we are presenting our model work in school and generally life and culture this country. Following invitation we departed to Roma, where we were, keep a person company and direction made the acquaintance of Italy arts by on pictures our book.

Pupils and professors in Project

Our country, Bosnia and Herzegovina, is not member European Union (EU) but we participated in Project supported by the British Ambasy and visited school in Eheter, who were earlier in city Banjaluka at River Vrbas.

Capital aim of visit was development friendship between schools and countries, which have many differences. Today and future, pupils have a very good communication across Videofons, appliance set for video communication, presents British

"Culture con drugs" presented with performances "One workday in the grammar school" Mathematics Grammar school in Osijek (Croatia). We stimulated good society beautiful memory, good emotion and safe picture, which shows positive impression from Croatia. We visited National Park "Kopački rit" where was demonstrated national original food (for example Slavonski gulaš... etc.).

Long time Grammar school Banjaluka Grammar school Kragujevac renew habitual hospitality. Those are usually twodays visits, but all time are presentation our school and same activities popular. We make an effort how preparation welcome and better entertain, but and acquaint with scholar and extracurricular activities our school, lifes and participation young people in development of Banjaluka.

How young people see the world today, tomorrow...

YESTERDAY is past. We can't bring the time back and change things. TODAY there is no point of blaming yourself for the things you have missed, because time is passing. And what will happen TOMORROW? Day after day, we have more and more opportunities of asking this question and being given the answer. What is more important, if we want to, we can decide about that answer... How? With our proposals and suggestions about organising our own life which we can publish on different places, in the way which only we, the young and the creative can imagine...

The school is a place where we spend a lot of our time, so it is one of the main factors in our life, precisely, it is the place where we live... Mainly because of that, the first ideas

about better organising that time inside the school are appearing here. The ideas become visions, and visions become reality. It isn't a problem to organise any action inside the school and make the achieved thing ordinary. With this, the step becomes bigger: vision spreads on local community, then on the society, and finally, their worldview tomorrow can change it and make it better, better for us, the young.

The medium between an idea in the head of a student and its realisation is the Students' Council. The students' organisation in this form has successfully acted in the Grammar school for several years. Different actions, inside and outside the school have been realised with the help of the Students' Council. The main purpose of the Council is to improve relationship between a teacher and a student, to promote students' rights and obligations, to organise volunteer actions, cultural events, sports activities.

Since school is students' mirror, we are making effort to make our world in it, which would reflect us. In that purpose, we have music during our break. ECO-GIM was, initially, part of the Council that was taking care of ecology around the school, and which later on, developed in a section that made the garden around our school the most beautiful in Banjaluka. Also, every year during the May, the Day of High

school students is being organised and it helps the young to express themselves through games and music no matter what their nationality or religion is. This isn't the only public performance where the Council promotes the world of the young. There are, also, TV performances, performances on fairs and participations on various seminars that are of great importance.

Exactly here, we can exchange advice and experiences with the young from other cities, as well as working together in creating better world without looking back on the past. The Council is, especially, proud of traditional volunteer actions that they organise in cooperation with non-Government organisations. These

include visits to centres for old people and collecting sweets for children without parents and for children with special needs. We perform some plays and play games with them in order to socialise them and make their world look better, OUR WORLD.

SPORT,CULTURE,ART IN THE PEACE MISION AS A WAY OF “CURING” HATRED THAT WARS, IDEOLOGIES AND POLITICS CREATED

Young people of today are exposed to consequences of some past conflicts of political and ideological character. The time passes, but hatred stays. We, the Grammar school students, found a way to overcome it, with mutual work, comprehension and socialising. Project "With culture against drugs" has been directing students, for almost 4 years, to creative work, who are very good at: acting, music, art, fashion and computer science.

Not only that it connects students from all over the country, but also students from abroad. We had many performances in our republic: PS(primary school) Milos Crnjanski, PS Sveti Sava, PS Vuk Stefanovic Karadzic, PS Georgos Papandreus in

Aleksandrovac, and on many fairs. We have even been in Osijek in Croatia and there we visited Grammar school and made life-long friendship.

Media are very important. We have the school paper, Orfej, which covers not only students' activities, but also activities of community which we are irresistible factor. We write about problems of the young, school activities, meeting new cultures and similar. We take part in all social happenings, primarily via The Students' Council. We want to improve relations among the young, to encourage them of mutual help and cooperation as a way of organizing volunteer actions. Day after day, we are closer of making our dreams come true.

We know! We aren't alone in our peace mission! We expect your help and encouragement!
Let's act together!
